

Athletix™ Cleaning Equipment

Athletix™ Equipment Cleaner

Today's health club members are concerned with the cleanliness of their clubs, including the equipment.

Sure, you're providing paper towels and spray bottles filled with some mixture of chemicals, but how many members actually use them? Do they like breathing in the overspray? Does equipment fail when chemicals find their way into the electronics? Did you know many disinfectant sprays are classified by the EPA as pesticides?

Now you can provide your members with all the positives of clean equipment while eliminating the negatives. Athletix™ Equipment Cleaner is the answer!
